OBSERVE the broad Republican smile.  
 Public office is a political snare.—Postmaster Simpson.

**JOHN O. PENDLETON** on a Free Trade platform is our meat—rich, rare and juicy.  
 First District Democrats are in a joking mood this year. That is what it means.

The Pendleton picnic is wound up to run a little more than two months unless sooner side-tracked.

Mr. PENDLETON spoke of his physical excitement. It has only begun. Wait until he takes to toying with the "vampires."

CIVIL SERVICE REFORM took a big hand in the First District Democratic Convention. It must have strained the resources of the Postoffice.

Mr. PENDLETON will presently turn loose his pet cage of "vampires that feed and fatten on the ruins of a decayed Republic." Then real fun will begin.

A few more such conventions, and First District Democrats will not think it worth while to go through the formality of holding a Congressional convention.

The strong Democrats of the First District must be hopeless this year, when they allow the nomination for Congress to waste its sweetness after this fashion.

To MAKE SURE of the Republicans of the First Congressional District have only to nominate their strongest and best man—an opportunity which the other side allowed to go by.

A Happy Find.  
 By special arrangement the INTELLIGENCER is permitted to anticipate the editorial comments of to-day's Register touching the First Congressional Democratic convention of yesterday.

The rock-ribbed and copper-bottomed yeamoury of the First District Democracy held a convention which was characterized by the utmost harmony and good feeling. There was at no time any danger of the convention breaking up as a result of intense disorder. No tomahawks were brandished. No bad blood was left out. The Ohio county delegation was not in a state of chronic disorder. At no time were all the delegates on their feet at once howling like mad. Mr. Pendleton did not plead like a mendicant for votes for himself. The convention bore no resemblance whatever to a beer garden. In fact it was frequently mistaken for a body of men met to transact serious business.

The delegations will thank the Register for putting so pretty a face on the affair. And they will go home with large winks in their several and individual eyes.

A Democratic Kick.  
 The West Virginia Democrat, edited by James M. Mason, of Charleston, refuses to support the Democratic candidates for Judges of the Supreme Court, claiming that their nomination was secured by the Standard Oil ring. The Democrat says:

"If an organization could be effected against the ring, it would be beaten overwhelmingly. As it is the indications are that a very large proportion of the party will rebuke what was done at Huntington by scratching the State ticket and either voting blank or else inserting the names of Johnson and Woods."

Respecting Mr. English and Judge Henry Brannon, our personal acquaintance with them does not justify an opinion of their merits. We rebel against their nominations because it was a put up job by a clique who, for concealed motives, wished to remove Johnson and Woods from the bench.

We are sure that the good and true men who voted against the old judges unwittingly lent themselves to the most disregard of the popular choice that has ever occurred in West Virginia. With us this is not a question of persons. It is a question whether we shall tolerate a conspiracy to defeat judges because they have refused to truckle to the money power. Mr. Jefferson said that government derives its powers from the consent of the people. If the people now submit to this outrage their consent gives to the government of a ring a power that will surely be used to still further oppress and impoverish them."

Free Trade Worrying Them.  
 A New York Dispatch.

The Democracy have two little white elephants on their hands, and they would like to get rid of them until the campaign is over. They are District

Attorney Fellows and Henry George. At a recent rally held here Senator Kenna devoted an hour in the attempt to prove that the Democratic success meant higher wages. Colonel Fellows followed and, among other things, he said: "Of course, a low tariff means lower wages, but that will give everybody work."

A county Democratic leader, who heard the utterances, was talking about it to-day at the Hoffman house, and he said it would cost Mr. Cleveland 5,000 votes in this city, and one hundred tickets that number if the Republican papers published the extract extensively.

Henry George is giving the local Democracy much worry. His paper is filled with praise of Mr. Cleveland as "The apostle of free trade."

## FARM AND HOUSEHOLD.

Useful Hints for Agriculturists and their Housewives.

Saleratus or soda cleans tins beautifully.

Wrap fruit jars with paper to keep out the light.

Buttermilk will remove tan, walnut stains and freckles.

This is the year for farmers to sow barley in place of oats.

Mix stove polish with vinegar and a teaspoonful of sugar.

Clogged wicks can be cleaned by boiling them in soap-suds.

When one's hands become hard and calloused, use pumice stone and lemon.

To brighten or clean silver or nickel-plated ware, scrub with a wooden cloth and flour.

Pastures will be dry in August and September. Put in a lot of corn for the cows and be ready.

Club-root rarely attacks cabbage grown on soft land which has not been set to cabbages for several years.

Superphosphate of lime is a special fertilizer for turnips of all kinds. 300 to 500 pounds per acre is usually applied.

Many of the ready-mixed paints are valuable and cheap, and the painting can be done by one of the boys or hired man at odd times.

Never sun feather beds. Air them thoroughly on a windy day in a cool place. The sun draws the oil and gives the feathers a rancid smell.

The annoying squeak of boots and shoes may be stopped by boring two or three small holes between the toe and instep, and filling them with oil.

A dish of whitening should be kept by every housekeeper. It makes nickel shine like silver and removes grease and dirt from paint without injuring it.

Professor Sanborn thinks that seventeen pounds of good old straw and three pounds of cotton-seed meal are worth as much as twenty-five pounds of good hay for feeding steers.

Tin vessels rust and are often worthless in a few weeks, because after washing, they are not set in the stove for a moment, or in the sun, to dry thoroughly before they are put away.

Soil or shininess on a coat collar or sleeves may be removed by sponging them off once or twice a week with the following preparation: One ounce of ammonia, one ounce of alcohol, one ounce of ether, one quart of water.

According to Professor H. Muller, the best time to prune vines is while the grapes are ripening, and the young shoots should be selected for this purpose, as they require for their development a large quantity of sugar, to the detriment of the ripening fruit.

It is not a mere fashion to cut the ears of dogs, especially of terriers. It is done for the purpose of avoiding disease of these organs, and mostly canker, which is caused by wet and filth which gathers in the ears and produces inflammation. The ears are cut off square so as to leave them no more than an inch long. It prevents the harboring of fleas in the ears.

Cattle are frequently troubled with sore feet from standing in filthy stables or muddy yards. To prevent it keep the stable and yards dry and clean. To cure the feet wash them with warm water and carbolic soap. Break all blisters and scabs and get a clean raw surface. Then apply a mixture of vasoline or cosmoline mixed with enough acetate of copper (verdigris) to make the ointment green. Bandage the feet, passing a part of it through the cleft. Keep the feet dry.

REGULATOR.

No Home Should be Without It.

IT TAKES THE PLACE OF A DOCTOR AND COSTS PRESCRIPTIONS.

No loss of time, no interference with business while taking. No danger from exposure after taking. Laxative and delicate persons will find it the mildest and most effective. It can be used at night and will not disturb sleep, and a natural evacuation of the bowels. A little taken in the morning sharpens the appetite, cleanses the blood and gives the system a new lease of life.
